

src/cf.hpp

```
graph TD; A[src/cf.hpp] <--> B[cf.h];
```

The diagram illustrates a bidirectional relationship between two files. At the top is a gray rectangular box labeled 'src/cf.hpp'. At the bottom is a white rectangular box labeled 'cf.h'. Two blue curved arrows connect them: one points from 'src/cf.hpp' down to 'cf.h', and the other points from 'cf.h' up to 'src/cf.hpp'.

cf.h
